

Oliver Fox

Front-End Software Engineer

✉ hello@oliverfox.uk 🏠 oliverfox.uk 🌐 github.com/digel4

Bio

Enthusiastic, focused and motivated web developer seeking an opportunity to work with modern web technologies within a dynamic organisation. Excellent communication skills- both oral and written. Flexible and adaptable to demands of changing work environments. Team player and also independently responsible.

Previous Experience

Assistant Project Manager @ New Art Exchange / Real Creative Futures Digital

March 2019 – present

- Built the Real Creative Futures Digital website from scratch using express.js and react.js.
- Incorporated a NoSQL database with MongoDB to generate and display events hosted by the organisation.
- Utilised React and Redux to create a seamless single-page application.
- Used JSON web tokens for authentication to allow seamless transitions from the user side to the admin side. Incorporated a silent refresh to overcome the issue of short expiration of JWT.
- Set up CORS to protect against cross-origin resource sharing based attacks.
- Developed a modern and responsive user interface using CSS/Sass, Grid, Flexbox, JavaScript.
- Continually updated the website features based on feedback from the project manager and organisational partners.
- Built a working prototype of an online application form that sends form data to the Salesforce API.
- Liaised with the marketing team in the future rebuild of the New Arts Exchange Website.
- Co-led the running of the business support programme.
- Organised a series of live-coding workshops.

Skills
